“**A**t KDF we provide a complete scanning solution for all your large and small format documents.”

## SCANNING

### THE KDF DIFFERENCE

Converting paper and film media to a raster format through scanning allows viewing, editing, printing, databasing, and archiving of your drawings right from your PC. Searching for documents that used to take hours can now take only minutes.

### ARCHIVING: PROTECT YOUR ASSETS

Scanning your drawings and documents now will protect them from further deterioration, water damage or fire. You can archive everything to CD for simple storage and make copies for further safeguarding.

KDF has provided successful scanning solutions for Surveyors, Engineers, Architects, School Districts, Municipalities, Construction Management Firms and more. We will design a scanning solution tailored to your individual needs and budget.
